Ideation, n. The initial stage of the creative process during which an idea is born.

Every individual has a unique process of ideation. This collection of sketchbooks represent a wide range of personal and professional processes for forming ideas. Some of the pages on display exemplify the raw, or even messy, steps needed to create a finished product. Some are finished pieces of art unto themselves. Artists included in this exhibition come from diverse creative perspectives, and use their sketchbooks for art-making, project planning, journaling, and mapping.
